

## MFA built for cyber insurance.

LoginTC Assure is an MFA package designed to help you meet Cowbell Insurance's requirements.

## LoginTC Assure

### Fast set-up

We know that when it comes to insurance, quotes expire quickly and renewals come up fast. Our **one-hour MFA set-up** means that you'll be ready in no time.

### Practical design

Our MFA package is built on extensive research about **cyber insurance requirements** to ensure it includes everything you need and nothing you don't.

### Industry partnered

We're working with Cowbell Insurance to ensure you're getting the best **advice** about the shifting insurance landscape.

Cowbell customers receive

# 20%

off all package prices.

## LoginTC Assure 10 (Base Package)

- Full review of MFA insurance requirements and infrastructure
- 2 Hours of hands-on set-up with our technical implementation team
- 3 month check-in
- 10 users
