

SPECIAL OFFER

Free password management solution for 6 months.

Boost your business security with ease with a special offer from our partners at NordPass Business.

Weak and reused passwords are the cybersecurity equivalent of leaving your office door unlocked at night. They're reliably among the most exploited vulnerabilities in data breaches — costing organizations millions in recovery.

And yet, NordPass research shows that the majority of corporate passwords are commonly used passwords, and 20% use the company's name — both types can be hacked in less than one second.

And with NordPass, you get much more than strong passwords. Advanced security settings including data breach monitoring and detailed activity logs mean your business can take a giant leap toward a safer cyberfuture with just one platform.

[Enquire here](#) for your activation code to unlock 6 months of password management for your entire company
